EDUCATION

G.H. Patel College of Engineering and Technology (GCET), Anand
Bachelor of Technology (B.Tech.) in Information Technology

2022–2026
GPA: 7.32 / 10

EXPERIENCE

Agevole Innovation Pvt. Ltd.
Full Stack Developer Intern

Gujarat, India
Jan 2026 – Jun 2026

- Built and deployed end-to-end MERN stack web applications using React.js, Node.js, Express.js, MongoDB, REST APIs, JWT authentication, role-based authorization, CRUD operations, responsive UI, and reusable component architecture.
- Integrated optimized MongoDB queries, fixed production bugs, tested features, collaborated using Git/GitHub, and participated in code reviews, deployment, and agile software development.

PROJECTS

PromptX — AI Prompt Enhancement Platform
[Live Demo](#) · [GitHub](#)

Node.js, Express.js, PostgreSQL, MongoDB, Redis, React, BullMQ, Next.js, Docker, GitHub Actions

- Built a production-ready AI prompt platform with modular backend architecture, scalable API design, asynchronous AI job processing, and 10+ REST APIs.
- Implemented JWT auth, refresh tokens, validation, centralized error handling, Redis caching, queue-based background workers, and secured 8+ protected routes reducing auth/session response times from nearly 3s to around 5ms.
- Integrated Pino logging, rate limiting, PostgreSQL workflows, Docker containerization, CI/CD pipelines with GitHub Actions, and reliable AI task execution through job queues and worker services.
- Tested 5+ critical routes using Jest and Supertest with unit, API, and integration testing including edge-case validation.

StyleNest — Full-Stack E-Commerce Platform
[Live Demo](#) · [GitHub](#)

Node.js, Express.js, MongoDB, Redis, React, Razorpay, Cloudinary

- Built a full-stack e-commerce platform with product, cart, checkout, admin workflows, and 5+ REST APIs.
- Integrated Razorpay payments, Cloudinary storage, RBAC-based admin controls, and responsive frontend components.
- Improved product/order API performance using Redis caching, reducing response times from nearly 3s to around 7ms.
- Managed 50+ products with consistent inventory updates and tested 4+ critical flows including checkout and payments.

SKILLS

Languages	JavaScript, TypeScript, C++, Python, SQL, HTML, CSS
Backend	Node.js, Express.js, REST APIs, Authentication, Authorization, JWT, RBAC
Testing	Jest, Supertest, Unit/API/Integration Testing, Pino Logging
DevOps & Cloud	Docker, GitHub Actions, AWS, CI/CD, Cloud Deployment
Frontend	React.js, Next.js, Tailwind CSS
Databases	MongoDB, MySQL, PostgreSQL, Redis
Core CS	DSA, DBMS, OOP, Operating Systems, Web Technologies
Tools	Git, GitHub, Postman, Vercel, VS Code
